PREPARATION

INSTALLATION

AFTER SALES SERVICE

RE LOCATION

MODULE CONCEPT specializes in the conception and preparation, on site assembly and dismantling, maintenance, renovation and re location of modular portable buildings for European manufacturers and users.

Preparation : Your specification and order are tailor-made by ourself.

Installation : After putting the foundations in place our team will carry on with all aspects of the assembly of the structure. This is a full turnkey package that includes installing of partitions, wheelchair ramps, external stairways, and of course all the ancillary works such as masonry, carpentry, plumbing, waterproofing, flooring, painting as well as external finishes, electrical installation and weatherproofing.

In addition to after sales service, we can also provide a maintenance contract and organise the re location of buildings where ever required.

At the safety of our teams is of paramount importance all of our staff are qualified and have the necessary certificates and accreditations. This enables us to ensure a smooth and professional on site installation.

In Europe our intervention zone currently covers France, Belgium and the United Kingdom.

Module Concept is based 40km away from Lille, in the North of France.

Please contact us with requirements, we are sure we can help you !
